

Through a partnership with mano-Y-ola and with funding from the Endowment, the U.S. Forest Service, and the Natural Resources Conservation Service, the Hispanic Forest Landowner Outreach Program (HFLO) was established to provide technical assistance to Hispanic forest landowners in the U.S.

## HFLO Program Goals

- Maintaining forest land as an asset for individuals, families, and communities
- Fostering sustainable forest management practices
- Connecting historically marginalized landowners to federal resources and support

Area	Predicted number of Hispanic forest landowners
Continental U.S.	4,203
Puerto Rico	19,951
Florida	462
New Mexico	301

Phase 1, completed in 2021, involved an enumeration study that determined the number, location, and needs of Hispanic forest landowners in the U.S.

Phase 2, in progress, involves the creation of a Trusted Hub for Hispanic forest landowners to access resources.

## Pilot Program Locations

Puerto Rico

Florida

New Mexico
